

Scanvaegt Labels

High-quality labels and tickets

**SMOOTH
OPERATIONS
REDUCED DOWNTIME
LESS
MAINTENANCE**

Scanvaegt Labels is a technically competent label printing house with decades of experience within production of self-adhesive labels, tickets and tags.

Save time and money - and prevent breakdowns – with labels from Scanvaegt Labels

Do you want to enhance the presentation of your products with unique labels, which signal high quality? And do you wish to ensure optimum operations and max. uptime of your labelling equipment?

You'll achieve just that with labels from Scanvaegt Labels, which will provide you with these advantages:

Labels of the best quality

We have decades of experience with labels as well as labelling equipment - we therefore know in detail, which requirements that the label must meet to function perfectly - visually as well as technically.

You'll get high-quality labels

A really attractive price

You'll have labels at very competitive prices. And if you have Scanvaegt-labelling equipment on a service agreement, we may also grant you a discount upon a delivery deal with us.

You'll save money

Fewer – or no – break-downs and downtimes

Our thorough knowledge of labelling equipment enables us to make labels, which run hassle-free and reduce wear and tear on the labelling equipment.

You'll eliminate production stops

Lower maintenance costs

The proper quality and surface coating of the label will reduce the wear and tear on the thermo printing head of the labelling equipment which then achieves longer life and needn't be replaced quite so frequent.

You'll reduce costs

Labels-on-time

Signing up for an annual agreement with fixed delivery of labels on specified dates, will ensure you labels-on-time - when you need them.

You'll have fixed, just-in-time supplies

All types of labels from one supplier

We have a versatile printing works and can supply you with multi-coloured sales labels, Linerless labels and neutral, white labels for box and pallet labelling.

You'll have just one supplier to contact

Max focus on the quality of the label

The quality of the label is crucial for the use and application of the label - it must be able to withstand humidity, frost or dust, it must stick firmly to the product, ensure sharp print-quality and preserve the colours.

Producing labels of such high quality requires specialized know-how - we possess that know-how.

The quality of the paper

We know precisely which paper type, that is required in any given industry and use only the best quality.

The surface-coating

Our thermo- and thermo-transfer labels have a surface-coating, which preserves colours and print.

The colours

Our printing inks are fast and stand up to strong light, moisture, cold and other external impacts.

The adhesive-type

We know which glue-types, that stick most firmly to moist, frozen and dusty as well as uneven products.

COUNSELLING AND CREATIVE ASSISTANCE

We have a wide range of competences and can assist you with:

- An analysis of your demands and requirements
- One or more precise proposals
- Label design with your own layout
- High-quality printing
- Fast delivery

Decades of Experience
