Printer turned by 90°

Label placement by lateral printer adjustment

ES 5901

The ES 5900 is a compact system with the capability for integration with stretch film units and the majority of top-seal, flow-pack and thermoformer machines. It is also possible for the machine to be hand-fed.

Due to the compact design the ES 5900 can easily be installed into production lines where space is an issue.

The system offers an excellent price/performance ratio. The state-of-the-art construction and design of the ES 5900 ensures easy serviceability with the support of the remote service modules, software updates can also be performed with ease. One single light barrier maintains product transport control. Finally, it is possible to integrate the ES 5900 into your existing network to manage it by our interactive Weigh Price Labelling Management Software, ESMS.

Option: All printers (from the top or bottom) can be equipped for thermal transfer print.
Series / Model	ES 5900
Terminal	ESC with touch screen
Pack Size in mm (L x W x H)	L 300 x W 360 x H 160
with family pack option	L 380
Pack Weight max.	6 kg
Performance	up to 65 packs/min
12 Dot/mm / 300 dpi	yes
Label passage	110 mm
Maximum Printing Speed top	250 mm/s
Maximum Printing Speed bottom	175 mm/s
Total Label Flap	for the top printer
Multiple Printer Operation	up to 2 top printers, 1 bottom printer
Print width	104 mm
Label Minimum W x L	37 x 30 mm
Label Maximum W x L	104 x 170 mm (Top Printer)
	104 x 150 mm (Bottom Printer)
Label reel core	76 mm
Label reel outside diameter	210 mm (inside wound)
Interfaces	USB, RS 232, Ethernet, PS/2, Parallel
Memory	Hard Disc
Pack Height Compensation	automatically up to 160 mm
Cross Setting	manually
Mains Voltage	180 V to 255 V / 50 – 60 Hz
Operating Temperature	-10 °C to +40 °C
Design	Stainless Steel, Stainless Materials
Options	Infeed / Separator Conveyor
	Total Printer ESD 104 / 234 / 404
	Thermal transfer equipment

Optional Thermal transfer equipment

Bottom printer with a label roll of up to 210 mm and a splashproof housing
