INTRODUCING PRESIDIO

THE SEALED CASH HANDLING SYSTEM FROM CASHGUARD

CashGuard Presidio is a fully contained and sealed cash management system that provides the best defense against both internal and external theft in the retail industry. In addition, CashGuard Presidio is self-sufficient and automated. It will count and track the money it contains, so you don't have to.

Presidio, the Spanish word for a fortified enclosure, represents the strength, security, durability and self-reliance that we believe this CashGuard closed cash system offers.

CashGuard Presidio seals the entire cash handling process, from the point of sale to the CIT pick-up. Presidio is easy to use, flexible and designed to meet the needs of the retail industry. It is the only system that can pay out notes and coins at the same time. This results in a faster check-out for customers and increased business potential for retailers. Together with CashGuard's first-rate support service, and the highest quality equipment in the field, CashGuard Presidio gives consumers an exceptional point of sale experience, while enabling retailers to save time, money and enhance their business performance.

When constructing CashGuard Presidio, we have created a solution that brings out the best of CashGuard technology to meet the specific needs of the retail industry.

PRESIDIO BUILDING BLOCKS

NEW! NOTE MOVER — SECURE CASH TRANSPORTATION

Note Mover has been especially developed to meet the needs for secure transport of cash in the retail environment. Note Mover enables sealed collection of cash between cash points and the back office. Simple step-by-step handling makes Note Mover easy to use in any retail setting.

NEW! NOTE DEPOSIT — THE INTELLIGENT SAFE

Once Note Mover has deposited the cash into Note Deposit, the safe displays the cash level information to managers in real time. It automatically prints a receipt as proof of deposit. No manual counting of cash is necessary. This saves employee time and increases security. Note Deposit makes retail cash handling secure, efficient and cost effective.

*»CashGuard Presidio is the ultimate solution to cash issues.
I look forward to that peace of mind for me, my staff and my customers.«*

Jimmy Farrell, owner of two Spar stores in Ireland.

Satisfied CashGuard customer since 2010 who uses Presidio since October, 2012.

It enables deposits throughout the day, reducing the amount of cash in the cash points. Note Deposit has the highest applicable security certifications in the industry.

COIN RECYCLERS

CashGuard offers several coin recycler models to fit retailers' needs. They all automatically count and track the coins and transfer the information to the back office software. CashGuard Coin Recyclers are durable, compact and ensure correct change at every transaction. They feature a steel cabinet and are protected by an electronic lock that tracks and records any opening. CashGuard Coin Recyclers create a safe and accurate cash experience for customers, staff and management.

NOTE RECYCLERS

CashGuard has a Note Recycler for any retailer's needs. Their multi-slot design has a high capacity and ensures fast administration of notes. They are also compact, versatile, and can be installed in a variety of cashier environments. CashGuard Note Recyclers ensure correct change and track levels for all denominations. As with all CashGuard products, CashGuard Note Recyclers are tamper-proof and any opening is tracked and recorded.

STORE MANAGER SOFTWARE

CashGuard's application software Store Manager is the central hub for the Presidio system. It lets retailers streamline store operations, save on employee hours and stay in control of cash handling. It is easy to use, works with all major browsers and the web client is platform-independent.

CASHGUARD PUTS RETAILER NEEDS FIRST

Less space demands: CashGuard solutions are designed to fit into existing store designs, and take up less space than other systems.

The best service and support in the business:

CashGuard offers all customers tailor-made support through our local certified partners. At least 90% of client questions can be solved on the phone.

Reliability: CashGuard products have the highest quality in the business.

Highest security certifications: CashGuard Presidio is the only cash management system with EN1143-1 ATM Grade III certification. We are also the only ones that have been certified by ECBS – Europe's leading security testing institute.

Simultaneous payments of coins and notes:

CashGuard is the only cash management solution that can pay out coins and notes at the same time.

POS Support: CashGuard integrates with all major POS applications in the retail industry.

CASHGUARD – SECURING YOUR BOTTOM LINE

CashGuard specialises in cash management solutions for the retail industry. The company was founded in 1991, and has since then grown into a market leader for cash management in the retail field. CashGuard's mission is to create a world class point of sale experience for customers, while offering retailers the best solutions for preventing shrinkage, tracking cash flow and optimising business performance. More than five million retail customers in more than 20 countries use CashGuard and there are close to 20 000 systems operating in Europe. CashGuard is headquartered in Stockholm, Sweden and is a wholly owned subsidiary of PSI Group. Go to www.cashguard.com for more information.
